

MEET YOURSELF AND FACE YOURSELF

## CV – DAMIR MALKOVICH

---

I was born in 1969. I grew up and lived in Yugoslavia until 1990. I had a beautiful childhood and spent my young days being just happy until the country began to slide into disunity and war. In 1992, I left the country for Israel, where I entered the hotel business and participated in it until 2006, when I ventured into international business diplomatic activities and helped establish the representative office of the Serbian-Montenegrin Chamber of Commerce in Israel. It was during this time that I first began to read and study ancient manuscripts and collections of wise teachings, and I eventually met some wise men during my Life to the Sea of Galilee. In 2010, there on the Sea of Galilee, I began writing the first sections of the manuscript titled FROM DARKNESS TO LIGHT, which was completed in Switzerland in 2014. For the past few years I have been sharing my time between Israel and Europe, for both professional and private reasons. I find the meaning of my existence in motivating those who feel they need help so as to live their true, best lives, instead of fake ones. Today I live in relationship with my soulmate.

With love,

*Damir Malkovich*
